

## Puppy B.R.E.A.T.H. Adoption Application

This adoption application helps determine if the puppy chosen is the right match for you and your family. Please allow us 2 business days before we respond to you after we receive your completed application. Please read our adoption process before filling out the application.

### ADOPTION PROCESS

---

1. Submit Adoption Application: Email completed application to [info@doglandofoundation.org](mailto:info@doglandofoundation.org). The adoption process **does not begin until the application has been received at this email address.**
2. Schedule a Meet and Greet: A board member will contact you to schedule a meet and greet with the puppy you are interested in within 2 business days of receiving your application.
3. Pay adoption fee: Once you have completed both the adoption application and meet and greet, your application will be reviewed by the board and you will be notified within 1 business day of your approval status. Upon notification of approval, you will have 24 hours to remit the adoption fee before the puppy is offered to the next approved adopter.

There is an adoption fee of \$500 for all dogs adopted from the Puppy B.R.E.A.T.H. program. The fee includes all vetting, spay/neutering, microchip, 6 week Pre-K9 puppy training class at the University of Doglando campus, and puppy starter kit. This fee must be paid in full to reserve a puppy. If you pay the adoption fee and then change your mind, you will forfeit the payment. If the puppy is unable to go home with you at the end of the program for medical reasons, payment will be refunded.

Puppies taking part in Doglando Foundation's Puppy B.R.E.A.T.H. program will be ready to go home upon completion of the program which could be as long as 16 weeks of age. Puppies are handled, fed, groomed, trained and given the opportunity to develop socialization skills and exposure to many environmental stimuli before they go home with you.

All puppies will participate in a 6-week puppy training class (<http://doglando.com/training/puppy-courses/pre-k9-i/> "Option 1-class only") at University of Doglando. Class will begin after 12 weeks of age and you are expected to attend with your puppy. This class helps minimize the usual and sometimes difficult puppy behavior we encounter in puppies adopted before the age of 16 weeks.

Once the adoption process is complete and the puppy goes home with you, you become the owner of your puppy and you are responsible for all medical needs and costs associated with your puppy from that time going forward.

If you are unable to provide your adopted dog with the care that it needs, you will return your dog to The Doglando Foundation for assistance in finding the puppy a new home.

***Please email completed adoption application to:***
